

The instant application seeks FCC authority for the *pro forma* transfer of control of a fixed earth station license held by Terremark Worldwide, Inc. as part of a planned internal corporate restructuring involving regulated indirect wholly owned subsidiaries of Verizon Communications Inc. (“Verizon”).

Exhibit E: Response to FCC Form 312, Question A20

Verizon is a Delaware corporation with its primary address at 1095 Avenue of the Americas, New York, NY 10036. No persons or entities hold a direct or indirect 10 percent or greater interest in Verizon.

Exhibit F: Response to FCC Form 312, Question A21

Verizon seeks Commission consent for the *pro forma* transfer of control¹ of various FCC licenses and authorizations as part of a planned internal corporate restructuring involving indirect wholly owned subsidiaries of Verizon.² The proposed restructuring contemplates the elimination or relocation of several holding companies in the Verizon ownership chain, resulting in the transfer of control of certain FCC licenses and authorizations from and to Verizon subsidiaries. Specifically, the following steps will take place virtually simultaneously on or after December 29, 2015:

- PCS Nucleus, L.P. will dissolve.
- JV PartnerCo, LLC will merge into Verizon Americas Inc. (“Verizon Americas”).
- Verizon Holdings LLC will merge into Verizon Americas. As a result, Verizon Americas’ 45 percent indirect ownership interest in Cellco Partnership will become a 45 percent *direct* ownership interest.
- Verizon Americas Finance 2 Inc. will merge into Verizon Americas Finance 1 Inc.
- MCI Communications Corporation will transfer control of MCI International, Inc. (“MCIII”) to Verizon Business Network Services Inc. (“NSI”)
- NSI will contribute its 2.6% ownership interest in MCI International Services, Inc. (“MCIIS”) to MCIII. As a result, MCIIS will become a wholly owned subsidiary of MCIII.
- NSI will transfer control of Terremark Worldwide Inc. through MCIII and MCIIS to MCI International Telecom Corp.

¹ 47 C.F.R. § 1.948(c).

² Notifications for all authorizations impacted by the restructuring that are eligible for forbearance from the requirement that advance consent to *pro forma* transfers of control be granted will be filed after the proposed restructuring occurs. 47 C.F.R. §§ 1.767(g)(7), 1.948(c)(1), 63.24(f)(1).

Attached hereto are charts showing the indirect ownership of the affected licensees before and after the proposed transactions. Also attached hereto is a list of affected licensee subsidiaries.³

Because the proposed restructuring does not change the ultimate control of any license or licensee (all will remain controlled by Verizon), it is *pro forma* in nature.⁴ The Commission has stated that, in situations “where no substantial change of control will result from the transfer or assignment, grant of the application is deemed presumptively in the public interest.”⁵

³ The lists of call signs referenced in the instant prior approval applications are intended to be complete and include all licenses under the control of Verizon that require prior approval for their transfer. However, the Applicants request that Commission approval of the *pro forma* transfer applications include any licenses requiring prior *pro forma* transfer approval that may have been inadvertently omitted.

⁴ *In re Fed. Communications Bar Ass’n’s Petition for Forbearance from Section 310(d) of the Communications Act Regarding Non-Substantial Assignments of Wireless Licenses & Transfers of Control Involving Telecomms. Carriers*, Memorandum Opinion and Order, 13 FCC Rcd. 6293, 6299, ¶ 8 (1998) (“*FCBA Forbearance Order*”) (“corporate reorganization which involves no substantial change in the beneficial ownership of the corporation” is *pro forma* in nature); *cf.* 47 C.F.R. § 63.24(d).

⁵ *Id.* at 6295, ¶ 2. *See also 1998 Biennial Review – Review of International Common Carrier Regulations*, Report and Order, 14 FCC Rcd 4909, ¶ 42 (1999) (finding that “[r]egulatory review of [*pro forma*] transactions yields no significant public interest benefits, but may delay or hinder transactions that could provide substantial financial, operational, or administrative benefits for carriers.”).
