Subject: FW: Telesat pro forma transfer of control

When you get back, could you make the consummation date in IBFS be **January 1, 2017** for SES-T/C-20170519-00572? This is related to other Telesat transfers we had to manually enter the consummation date for, because it occurred before they filed the applications.

Thanks.

Clay,

The application for pro forma transfer control of the Infosat earth station has been granted. The filing for the Section 214 authorizations was only a notification, because the transfer of control was pro forma, but IBFS is showing that filing as having been "granted," too.

On the first go round, you had to handle the consummation from your side because IBFS will not accept a consummation notice for a date that precedes the filing of the application. Can you do the same thing for the more recent filings? I am not certain whether consummation is necessary for the Section 214 notifications. The file numbers are ITC-T/C-20170519-00099 and SES-T/C-20170519-00572.

Thanks.

Joe

We just realized there is another loose end to take care of. A company called Infosat operates separately from Telesat but is owned by Telesat. Infosat holds an earth station license, two international Section 214 authorizations, and non-common carrier wireless licenses. So the Infosat licenses and authorizations need to be part of the clean-up, too.

We are preparing pro forma transfer of control applications for Infosat's earth station license and Section 214 authorizations. I will copy you when they have been filed. We will deal with the Wireless Bureau on the other licenses.

I think we can take care of this internally. I'll let you know if not.

Thanks.

Subject: RE: Telesat pro forma transfer of control

One final detail.

The pro forma transfer of control application has been granted, and we need to file a consummation notice. As stated in the application, the ownership change occurred on January 1, 2017. But IBFS will not accept a consummation notice for a date that precedes the filing of the application.

What should we do?

Subject: Telesat pro forma transfer of control

Attached are copies of the filings submitted by Telesat and affiliated companies related to the pro forma transfer of control. Thanks again for your assistance in this matter.
