

Exhibit E: Response to FCC Form 312, Question A20

Wasserstein Cosmos Co-Invest, L.P. (“Wasserstein Cosmos” or “Transferor”) currently directly owns 95.5% of the outstanding shares of Cosmos Holdings Acquisition Corp. (“Cosmos Holdings”), which is the direct 100% parent of Globecomm Systems, Inc. (“Globecomm”) and Globecomm License Sub LLC (“Globecomm License Sub”). Globecomm is the direct 100% parent of Telaurus Communications LLC (“Telaurus”). Globecomm License Sub holds fixed earth station authorizations. As described in further detail elsewhere in this exhibit, it is contemplated that control of Cosmos Holdings will be transferred from Wasserstein Cosmos to HCT Acquisition, LLC (“HCT” or “Transferee”). Accordingly, the parties hereto hereby respectfully request Federal Communications Commission (“FCC” or “Commission”) consent to the transfer of control of the fixed earth station authorizations held by Globecomm License Sub from Wasserstein Cosmos to HCT.¹

At the time the proposed transaction is consummated, the entities disclosed below will hold a ten percent or greater direct or indirect ownership or controlling interest in HCT. Other than the parties disclosed below, no other person or entity will have a ten percent or greater direct or indirect ownership or controlling interest in HCT at the time the proposed transaction is consummated. A chart depicting the proposed ownership structure is attached hereto.

Exhibit F: Response to FCC Form 312, Question A21

The instant application seeks Commission authority for the transfer of control of fixed earth station authorizations held by Globecomm License Sub from Wasserstein Cosmos to HCT.

Description of the Proposed Transaction

The Applicants seek Commission consent to the transfer of control of the fixed earth station authorizations held by Globecomm License Sub. As described below, the transaction will be in the public interest, as it will enable Globecomm License Sub, Globecomm, and Telaurus (collectively referred to herein as the “Globecomm Licensees”) to be acquired by a new parent company with substantial financial wherewithal. The transaction will thus provide the Globecomm Licensees with a solid financial platform to better enable them to compete within the highly competitive market for global communications.

Description of the Parties

Globecomm is a global communications solutions provider, offering customers managed access services to the United States Internet backbone, video content, the public switched telephone network or their corporate headquarters or government offices. Globecomm utilizes a combination of terrestrial connectivity, satellite bandwidth and teleports, along with a variety of remote very small aperture terminals, or VSATs, to provide end-to-end connectivity. Globecomm also leases and resells more than one GHz of total satellite bandwidth across the globe for different frequencies, coverage areas and polarizations. Domestically, Globecomm provides nationwide toll-based termination of voice calls. Globecomm holds Section 214 authority to provide international and domestic telecommunications services.

Globecomm’s wholly owned subsidiary, Telaurus, a Delaware limited liability company, provides a secure and robust global maritime communications network. This network provides shipboard users with an easy to use, reliable and cost effective means by which they can communicate. Telaurus resells pre-paid and post-paid phone cards and voice services for Inmarsat and Iridium satellite phones. Telaurus holds Section 214 authority to provide international and domestic telecommunications services.

Globecomm’s sister company, Globecomm License Sub, a Delaware limited liability company, also holds, in addition to the licenses for fixed earth stations, licenses for non-common carrier VSAT networks and private wireless facilities, which support the operations of Globecomm and Telaurus.

The Transferee, HCT, is a Delaware limited liability company. Upon consummation of the transaction contemplated herein, HCT will be owned by a group of investors including: (1) Lincoln Investment Solutions, Inc., which is a full service financial services firm; (2) American United Life Insurance Company, which is a leading insurance company; and (3) various investment funds managed by Cerberus Capital Management II, LP and Tennenbaum Capital Partners, LLC, both of which are leading investment management firms. Both Lincoln

Investment Solutions, Inc. and American United Life Insurance Company are parties to investment management agreements with HPS Investment Partners, LLC a leading investment management firm, pursuant to which HPS Investment Partners, LLC will exercise discretion and control over their investments in HCT.

Description of the Agreement

On August 7, 2017, Cosmos Holdings, HCT, and a subsidiary controlled by HCT, HCT Merger Sub Corporation (“Merger Sub”), entered into a definitive Agreement and Plan of Merger (the “Merger Agreement”). Pursuant to the Merger Agreement, and subject to the conditions thereof, HCT Merger Sub will merge with and into Cosmos Holdings, leaving Cosmos Holdings as the surviving entity. Upon consummation of the proposed transaction, Cosmos Holdings (and, accordingly, all of its subsidiaries, including the Globecomm Licensees) will be 100% owned and controlled by HCT.

The transaction thus will result in the transfer of control of all of the FCC licenses and authorizations held by the Globecomm Licensees from Wasserstein Cosmos to HCT. Specifically, at closing, Globecomm (which wholly owns Telaurus) and Globecomm License Sub will each be direct 100% subsidiaries of Cosmos Holdings. Cosmos Holdings in turn will be owned by HCT and its members, all of whom are described above. Because the proposed transfer of control will be completed at the holding company level, the Applicants expect that the transaction will be entirely transparent to the Globecomm Licensees’ customers and will have no effect on the services those customers currently receive. As it affects only the ownership of the Globecomm Licensees’ parent company, the proposed transaction will not result in any adverse change in the assets that the Globecomm Licensees use to provide service or the Globecomm Licensees’ day-to-day operations, nor will the transaction itself have any adverse effect on the Globecomm Licensees’ rates, terms or conditions of service.

Public Interest Statement

The proposed transfer of control of Globecomm License Sub to HCT serves the public interest and will cause no offsetting public interest harms. Therefore, the Commission should expeditiously approve the proposed transfer of control.

The proposed transfer of control will promote competition by enabling the Globecomm Licensees to be acquired by a reorganized parent company with substantial financial resources. The members of HCT are entities that either manage capital on behalf of institutional and individual investors or are leading financial services firms or insurance companies. The transaction will provide the Globecomm Licensees with a solid financial platform to better enable them to expand their customer base and develop new products and services to meet the evolving needs of their customers. As such, the transaction will better enable the Globecomm Licensees to compete in the highly competitive market for global communications.

At the same time, the proposed transfer of control does not raise any competitive concerns. Neither HCT nor any of its members are in the business of providing communications services. Accordingly, the transaction does not eliminate a competitor or in any way reduce

competition in the market for global communications. In contrast, the transaction will likely increase competition by strengthening the Globecom Licensees' financial wherewithal, enabling them to become even more effective competitors.
