

Description of Transaction and Public Interest Statement

This notification is being filed in connection with the Commission-approved merger of Entercom Communications Corp. (“Entercom”) and CBS Radio Inc. (“CBS Radio”), which was consummated on November 17, 2017. Specifically, a subsidiary of Entercom merged with and into CBS Radio, which was a wholly owned indirect subsidiary of CBS Corporation (“CBS”). The merger resulted in (i) the transfer of control of CBS Radio from National Amusements Inc., the controlling shareholder of CBS, to Entercom, and (ii) the transfer of control of Entercom from Joseph M. Field to the post-merger shareholders of Entercom generally.

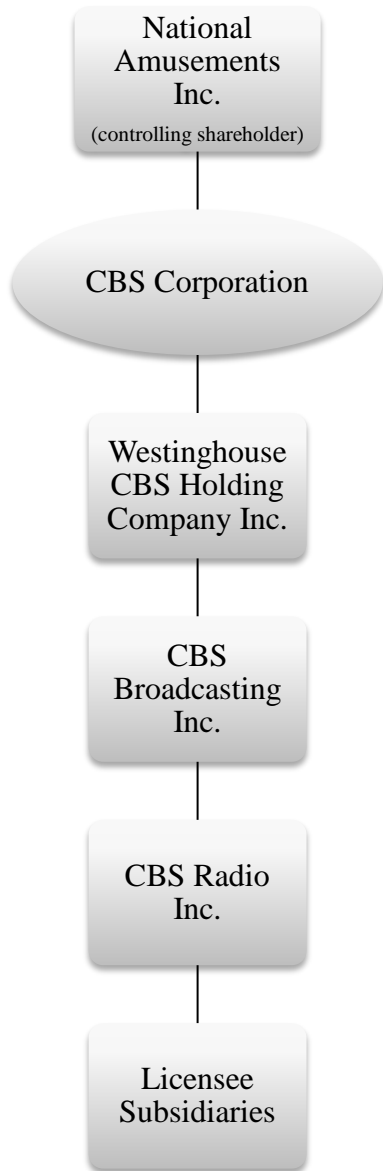

The receive-only earth station authorizations that are the subject of this notification are used by the licensee, an indirect, wholly-owned subsidiary of Entercom, to facilitate broadcasts to the public in connection with its broadcast stations.

The purpose of this filing is to notify the Commission of the transfer of control of the receive-only earth stations that are the subject of this notification from CBS Radio to Entercom.

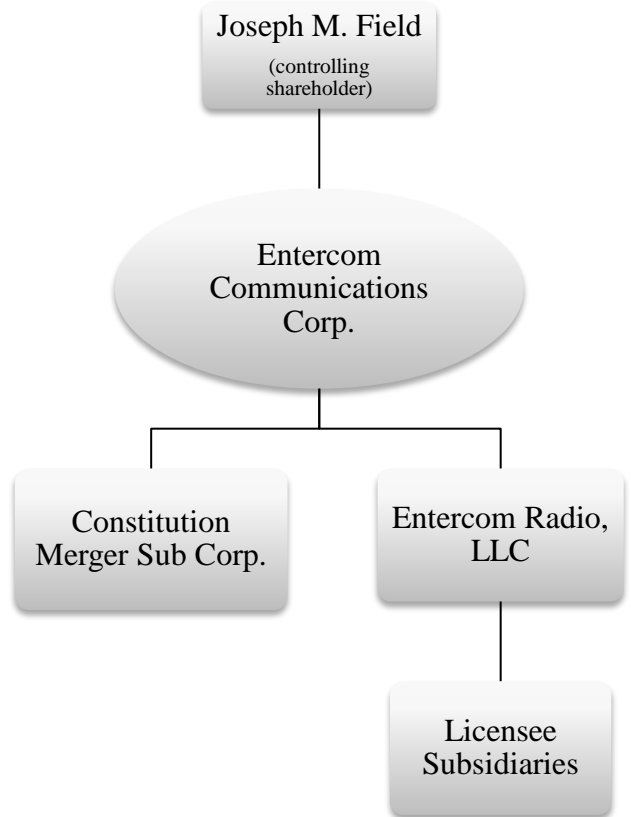

Attached to this exhibit are diagrams showing the structure of CBS Radio and Entercom both before and after consummation of the merger.

This transfer of control is in the public interest because it will allow the earth station authorizations to continue to be used in the operation of the broadcast stations also being transferred in connection with the merger.
