

**Public Interest Statement**

The instant application is one of multiple Form 312 applications being filed concurrently pursuant to a Purchase Agreement between Cordillera Communications, LLC (“Cordillera”) and Scripps Media, Inc. (“Scripps”) dated October 27, 2018 (the “Transaction”). Cordillera is the parent of the licensee entities (the “Licensees”) listed on Attachment A that hold satellite earth station licenses (the “Stations”). The Stations are used in connection with the associated television stations for the reception and transmission of programming. The parties propose a two-step Transaction:

- transfer of control of the Licensees from Cordillera to Scripps; followed immediately after consummation of that transfer by
- *pro forma* assignment of the Stations’ licenses via a second set of Form 312 applications to a wholly-owned Scripps subsidiary, Scripps Broadcasting Holdings LLC (“SBH”). (See diagram in Attachment B.)

FCC Form 315 and Form 316 applications for the transfer of control and *pro forma* assignment of the associated broadcast television stations are being filed concurrently with the Media Bureau. Grant of the instant application will serve the public interest by allowing the continued use of the Stations for the gathering and provision of news and information, and coverage of local community events.
