

**Exhibit F**

**PUBLIC INTEREST STATEMENT**

This application seeks the consent of and notifies the FCC of the consummation, on January 1, 2022, of the transfer of control of the receive-only earth station license(s) identified at item A8 of FCC Form 312, Schedule A (the “Earth Station”), described in Exhibit E to this application.

The Earth Station is used in connection with the broadcast operations of radio and/or television stations for news gathering and coverage of events of interest to the stations’ local communities. The parties to this application filed concurrent applications in the Media Bureau’s LMS electronic filing system for consent to this transaction for the licensee of the broadcast stations associated with this Earth Station. After consummation of the proposed transaction, the licensee will continue to use the Earth Station in the same manner and for the same purposes as before the transaction. Accordingly, grant of this application would serve the public interest.
