In connection with the common carrier earth stations held by the Licensees, Viasat is filing a petition for declaratory ruling under Section 310(b)(4) of the Communications Act of 1934, as amended. A copy of that petition is included as Exhibit 3 in response to Question 34 of the Form 312.[3]

[1] As of November 19, 2021, Baupost, as well as Baupost GP as manager of Baupost and Seth A. Klarman as sole managing member of Baupost GP, held approximately 22.19 percent of Viasat's outstanding common stock. Their interest will be diluted upon the closing of the Proposed Transaction and the issuance of the 37.5 percent stock interest to the current shareholders of Connect Topco.

[2] Upon the closing of the Proposed Transaction, each of the current shareholders of Connect Topco will hold less than 10 percent of the equity and voting interests in Viasat. Additionally, the current shareholders of Connect Topco have a contractual right to designate for nomination up to two out of ten directors to Viasat's board of directors; their right to designate directors for nomination is subject to their ownership percentage of the total outstanding shares of Viasat's common stock. Those parties also are contractually obligated to vote their shares in accordance with the recommendation of the Viasat board of directors or any applicable committee thereof with respect to any action, proposal or matter to be voted on by the Viasat stockholders for a specified period.

[3] The response to Question 32 in the Form 312, regarding direct foreign ownership in a common carrier, is with respect to the Licensees holding common carrier earth station licenses, and thus, has been answered in the negative.
