

**Request for Waiver**

In connection with an internal corporate reorganization, Fox Corporation prepared and submitted applications for *pro forma* transfers of control for earth station licenses held by its subsidiaries. These applications were granted by public notices on December 4, 2018, and December 12, 2018. Due to an oversight by outside counsel, however, the company neglected to submit an application seeking approval for the *pro forma* transfer of control for the instant licensee. Fox Corporation thus respectfully requests a waiver of Section 25.119 of the Commission's rules requiring prior authorization for the *pro forma* transfer of control of an earth station licensee. Given the *pro forma* nature of this transfer, and the fact that the company sought and received approval for the transfers of control of its other earth station authorizations, it is in the public interest to grant a waiver and consent to the *pro forma* transfer described herein to ensure that the operation of the underlying earth station facilities may continue without interruption.
