

## EXHIBIT F — PUBLIC INTEREST STATEMENT

On September 18, 2020, Radiate Holdings, L.P. (“Radiate”) and ACME Communications, Inc. (“ACME”) consummated a transaction pursuant to which Radiate acquired several subsidiaries of ACME (the “Transaction”). As demonstrated more fully in the course of the Parties’ Section 214 application review,<sup>1</sup> the Transaction will demonstrably benefit the public interest. Consummation of the Transaction will provide the acquired companies (the “ETS Licensees”), including Entouch which holds the C-Band receive-only earth station registration that is the basis of this notice filing, with access to the extensive financial, technical and operational resources of Radiate and its current affiliates, including the family of RCN Telecom Services, LLC (“RCN”) / Grande Communications Networks, LLC (“Grande”) / WaveDivision Holdings, LLC (“Wave”) companies, thus strengthening the ETS Licensees’ operations in the Texas telecommunications services and cable markets. At the same time, the ETS Licensees will contribute their own experience and resources to the RCN/Grande/Wave family of providers. These resources include an estimated 1,400 miles of the ETS Licensees’ fiber network and an additional 22,000 residential and business customers in, and in proximity to, the largest city in Texas. As a result, the benefits of this Transaction will be felt not only by consumers in the ETS Licensees’ operating territories but also throughout the combined territories of the RCN/Grande/Wave operating companies.

Even as these benefits are generated, the Transaction will have no adverse effects upon the operations of the ETS Licensees, their customers or the communications markets in Texas and nationwide. Following consummation of the Transaction, the ETS Licensees will continue to provide the full range of services they do today, without diminishment or interruption. Consequently, the Transaction will not reduce the range or quality of service options available to Texas consumers.

Similarly, the Transaction presents no anti-competitive concerns and will have no adverse impact on the U.S. domestic or international communications markets.

---

<sup>1</sup> *In re Application of ACME Communications, Inc., Transferor, ETS Telephone Company, Inc. and ETS Cablevision, Inc., Licensees, and Radiate Holdings, L.P., Transferee, for Consent to a Transaction that will Result in a Change of Control of Companies Holding Domestic and International Authority pursuant to Section 214 of the Communications Act of 1934, as Amended* (filed March 9, 2020). See WCB Docket No. 20-76; ITC-T/C-20200309-00039.
