

Public Interest Statement

The instant application requests Commission consent to the transfer of control of ION Media Stations, Inc., the licensee of transmit earth stations E920199 and E150101 (the “Stations”), from Media Holdco, LP, the direct parent of ION Media Networks, Inc. (“ION”), to Scripps Media, Inc. (“Scripps”). The application is part of a larger transaction between ION and Scripps for which Form 315 applications for transfer of control of the associated broadcast television stations are pending with the Media Bureau (*see* lead application file no. BTCCDT-20201013AAO).

Grant of the instant application will serve the public interest by allowing continued use of the stations for transmitting and receiving programming.
