* The most recent applications with respect to these licenses were granted in part and deferred in part, and amendments have subsequently been submitted with respect to each - SAT-AMD-20210309-00030 (S2946) and SAT-APL-20210309-00031 (S3045). Applicant requests that if additional modifications to the grant under any such license application/amendment request are made during the pendency of this transfer of control application, that transfer of control of the resulting license will also be permitted.

**SES-MOD-20210118-00061, a request for the modification of the license granted pursuant to SES-MFS-20191111-01421, is currently under review. Applicant requests that if the modification is approved during the pendency of this transfer of control application, that transfer of control of the modified earth station license will also be permitted.

Applicant also notes that the following FCC licenses for earth stations, which still appear active in the Commission's databases, have previously been submitted for decommissioning as noted below.
