

Exhibit E

As explained in Exhibit F, the instant application is one of two concurrently filed applications seeking the consent of the Federal Communications Commission (“Commission”) to the *pro forma* transfer of control of Disney Streaming Services LLC (“DSS”) that will result from an internal corporate restructuring (“Restructuring”) being undertaken by the Walt Disney Company (“TWDC”). As set forth in more detail in Exhibit F and depicted in the attachments thereto, TWDC, through a series of intermediate entities, currently owns and controls DSS. This will continue to be the case after the Restructuring is effectuated. The transmit satellite earth station authorizations (“Earth Station Authorizations”) that are the subject of this Application are used in connection with the DSS’s streaming and content distribution operations. The Earth Station Authorizations will be used in the same manner and for the same purposes following the Restructuring as they were before the Restructuring. Accordingly, the public interest would be served by prompt consent to this application seeking consent to the *pro forma* transfer of control described herein. Organizational diagrams depicting the pre- and post-Restructuring ownership structure of DSS are included as part of Exhibit F.
