Re: Surrender of License

From: Daniel Green Chief Broadcast Engineer, Cosumnes River College

The Los Rios Community College District would like to surrender the license for our Fixed Earth Station under the call sign of E930284 operating in the Domestic Fixed Satellite Service, on the campus of Cosumnes River College in Sacramento California.

We recently removed this earth station from our property because of non use and to erect a new building in the space it was occupying.

Thank You

Dan Green

Chief Broadcast Engineer
