Re: 07RE010097

Dear Licensee:

This letter is a final demand for payment in reference to a bill that was issued by the Federal Communications Commission that remains unpaid. The enclosed billing document indicates the reason for this bill. Your account is seriously past due and requires immediate attention.

You are cautioned that failure to respond and/or pay this debt will subject you to sanctions as defined by 31 U.S.C. §3717 and 4 C.F.R. Part 102. The Debt Collection Improvement Act of 1996 as amended gave Federal Government agencies the authority to report and refer delinquent debts to the U.S. Treasury Department for further collection action. If payment is not received within 30 days from the date of this letter, your account will be assessed further penalties, which can be as high as 11 percent, and referred to the U.S. Treasury for collection. Please mail your payment along with a copy of the enclosed bill to the following address:

Federal Communications Commission  
P.O. Box 979088  
St. Louis, MO 63197-9000

If you have any documentation that will establish that the debt was paid, such as a canceled check, or any other supporting information, please submit this information along with a copy of this letter. You may provide any documentation that will support a claim of financial hardship. Such information as profit and loss statements can be used in these instances. Your documentation and/or remittance must be mailed to the Federal Communications, along with a copy of the enclosed bill to the following address:

Federal Communications Commission

**RADIO STATION AUTHORIZATION**

Name: Ascent Media Systems and Technology Services, LLC

Call Sign: E6930

Authorization Type: Renewal of License

File Number: SES-RWL-20040312-00402

Non Common Carrier

Grant Date: 03/17/2004

Expiration Date: 03/30/2019

Nature of Service: Domestic Fixed Satellite Service

Class of Station: Fixed Earth Stations

**A) Site Location(s)**

#	Site ID	Address	Latitude	Longitude	Elevation (Meters)	Special Provisions NAD (Refer to Section H)
1)	1	FORT SMITH, SEBASTIAN, AR	35°24'12.0"N	94°22'46.0"W	134	

Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning March 30, 2004 (3 AM Eastern Standard Time) and ending March 30, 2019 (3 AM Eastern Standard Time) . The required date of completion of construction and commencement of operation is 00/00/0000. Grantee must file with the Commission a certification upon completion of construction and commencement of operation.

**B) Particulars of Operations**

The General Provision 1010 applies to all receiving frequency bands.

The General Provision 1900 applies to all transmitting frequency bands.

For the text of these provisions, refer to Section H.

None unless otherwise specified under Special and General Provisions

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 1010 --- Applicable to all receiving frequency bands. Emission designator indicates the maximum bandwidth of received signal at associated station(s). Maximum EIRP and maximum EIRP density are not applicable to receive operations.
1501 --- Carrier frequency modulated by a composite television signal consisting nominally of a video carrier with a baseband of 10 KHz or 15 Hz to 4.25 MHz and subcarrier(s) nominally between 5.8 and 7.4 MHz with typical baseband(s) of 20 Hz to 15 KHz.
1538 --- Emission 36000F9 denotes a 36 MHz bandwidth carrier, frequency-modulated by a composite television signal consisting nominally of a video carrier with a baseband of 10 Hz or 15 Hz to 4.25 MHz and subcarrier(s) nominally between 5.8 and 7.4MHz with typical basebands of 20Hz to 15 KHz.
1794 --- Emission 112F9Y denotes a 56 Kbps BPSK status return channel with rate 1/2 FEC encoding (112 Kbps transmission rate).

## H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 1900 --- Applicable to all transmitting frequency bands. Authority is granted to transmit any number of RF carriers with the specified parameters on any discrete frequencies within associated band in accordance with the other terms and conditions of this authorization, subject to any additional limitations that may be required to avoid unacceptable levels of inter-satellite interference.
- 2010 --- This authorization is issued pursuant to the Commission's Second Report and Order adopted June 16, 1972 (35 FCC 2d 844) and Memorandum, Opinion and Order adopted December 21, 1972 (38 FCC 2d 665) in Docket No. 16495 and is subject to the policies adopted in that proceeding.
- 2060 --- This Authorization is issued pursuant to the Commission's Order and Authorization adopted 3/30/84 in the matter of application file nos. 1735/1737/1994-DSE-P/L-83 and 749-DSE-P/L-84 and is subject to the terms and conditions set forth in that decision.
- 2300 --- Authority is granted to operate this station by remote control provided that: (1)The parameters of the transmissions of this station monitored at the remote control point, and the operational functions sufficient to insure that the operations of this station are in full compliance with the station authorization at all times; (2) upon detection by the grantee, or upon notification from the Commission, of a deviation of the operation of this station shall be immediately suspended until the deviation is corrected, except the transmissions concerning the immediate safety of life or property may be conducted for the duration of such emergency; and (3) the grantee shall have available, at all times, the technical personnel necessary to perform the technical servicing and maintenance of this station expeditiously.
- 2810 --- The grantee shall maintain on file with the Commission's current list or plan of the precise frequencies in actual use at this station, specifying for each such frequency: the r.f. center frequency, polarization, emission designator, EIRP (dBW), EIRP density (dBW/4kHz), and receiving earth station(s). This list or plan may be submitted either on a station-by-station basis or on a system-wide basis, and shall be updated within seven days of any changes in frequency usage at this station. Temporary usage of frequencies for periods of less than seven days need not be notified to the Commission if accurate station records are maintained of the times and particulars of such temporary frequency usage.
- 2916 --- Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.
- 2938 --- Upon completion of construction, each licensee must file with the Commission a certification including the following information: name of the licensee, file number of the application, call sign of the antenna, date of the license and certification that the facility as authorized has been completed, that each antenna facility has been tested and is within 2 dB of the pattern specified in Section 25.209 and that the station is operational including the date of commencement of service and will remain operational during the license period unless the license is submitted for cancellation.
- 5216 --- All operations shall be on a non-common carrier basis.

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of authorization to request additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.

Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulates is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993". These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.
