Re: Surrender of Receive-Only Earth Station License
Call Sign: E8022
FCC File Number SES-RWL-20081017-01336
FCC Registration Number 0003189248

Dear Ms. Dortch:

On behalf of Independence Television Company, I hereby submit for surrender the license authorization for receive-only satellite earth station call sign E8022.

Please contact me if you have any questions.

Respectfully submitted,

A handwritten signature in blue ink that reads "Christina H. Burrow". The signature is stylized and cursive.

Re: **Surrender of Receive-Only Earth Station License**
Call Sign E8022
FCC File Number: SES-RWL-20081017-01336
FCC Registration Number: 0003189248

Dear Ms. Dortch:

Independence Television Company verifies that it desires to surrender the license authorization for receive-only satellite earth station E8022.

Respectfully submitted,

INDEPENDENCE TELEVISION COMPANY

By:  _____

Title: President and General Manager

Date: June 6, 2018

UNITED STATES OF AMERICA
FEDERAL COMMUNICATIONS COMMISSION
RADIO STATION AUTHORIZATION

Current Authorization : FCC WEB Reproduction
 Unofficial Copy

Name: INDEPENDENCE TELEVISION COMPANY

Call Sign: E8022
 File Number: SES-RWL-20081017-01336

Authorization Type: Renewal of License
 Non Common Carrier Grant Date: 10/31/2008 Expiration Date: 12/02/2023

Nature of Service: Domestic Fixed Satellite Service

Class of Station: Fixed Earth Stations

A) Site Location(s)

# Site ID	Address	Latitude	Longitude	Elevation (Meters)	NAD	Special Provisions (Refer to Section H)
1) 1	NEW ALBANY, FLOYD, IN	38° 20' 55.0" N	85° 51' 2.0" W	283.5	83	

Licensee certifies antenna(s) comply with gain patterns specified in Section 25.209

Subject to the provisions of the Communications Act of 1934, The Communications Satellite Act of 1962, subsequent acts and treaties, and all present and future regulations made by this Commission, and further subject to the conditions and requirements set forth in this license, the grantee is authorized to construct, use and operate the radio facilities described below for radio communications for the term beginning Tuesday, December 02, 2008 (3 AM Eastern Standard Time) and ending Saturday, December 02, 2023 (3 AM Eastern Standard Time). The required date of completion of construction and commencement of operation is 00/00/0000 (3 AM Eastern Standard Time). Grantee must file with the Commission a certification upon completion of construction and commencement of operation.

B) Particulars of Operations

The General Provision 1010 applies to all receiving frequency bands.
 The General Provision 1900 applies to all transmitting frequency bands.
 For the text of these provisions, refer to Section H.

# Frequency	Polarization	Emission	Tx/Rx Mode	Max EIRP /Carrier	Max EIRP Density	Associated Antenna	Special Provisions (Refer to Section H)	Modulation/ Services
1) 3700.0000 - 4200.0000	H,V	3600F9	R			1		

C) Frequency Coordination

#	Frequency Limits(MHz)	Satellite Arc (Deg. Long.)		Elevation (Degrees)		Azimuth (Degrees)		Max EIRP Density toward Horizon (dBW/4kHz)	Associated Antenna(s)
		East Limit	West Limit	East Limit	West Limit	East Limit	West Limit		
1)	3700.0000 - 4200.0000	65.0W	143.0W	40.5	16.9	148.5	248.2	0.0	1

D) Point of Communications

The following stations located in the Satellite orbits consistent with Sections B and C of this Entry:
 1) 1 to All authorized U.S. Domestic (ALSAT) Satellites.

E) Antenna Facilities

Site ID	Antenna ID	Units	Diameter (Meters)	Manufacturer	Model Number	Site Elevation	Max Antenna Height (Meters)	Special Provisions (Refer to Section H)
1	1	1	4.3	AFC CH-14M		283.5	4.9 AGL/ 288.4 AMSL	

Max Gains(s):43.5 dBi @ 4.0000 GHz
 Maximum total input power at antenna flange (Watts) = 0.0
 Maximum aggregate output EIRP for all carriers (dBW)0.0

G) Antenna Structure marking and lighting requirements:

None unless otherwise specified under Special and General Provisions

H) Special and General Provisions

A) This RADIO STATION AUTHORIZATION is granted subject to the following special provisions and general conditions:

- 1000 Maximum EIRP and maximum EIRP density are not applicable to receive-only operations.
- 2000 The hours of operations of this station are not limited.
- 2200 These facilities shall be used for the reception of only such programming material that the grantee has been authorized to receive and use by the owner of the programming material.
- 2210 The grantee is authorized to add, delete or change channels of program material received from the satellite specified in Section 2 of this authorization without further application or notification to the Commission, provided: (a) the carriage of such program material is authorized pursuant to the Commission's rules, regulations and policies governing the terrestrial system(s) used to distribute this material to the end subscribers, and (b) that such earth station operations are consistent with the technical parameters specified in this authorization.
- 2500 With respect to potential co-channel interference to or from terrestrial microwave radio stations: receive frequency band(s) listed in Section B of this authorization have been cleared for transmissions from and transmit frequency band(s) listed in Section B have been cleared for transmission to satellites located in the portion of the geostationary satellite orbit specified in Section D for the emissions designated in Section B.
- 2510 Waiver of Section 25.203 (e) of the Commission's Rules and Regulations is granted for the beam intersections listed in the application(s) for this facility.
- 5216 All operations shall be on a non-common carrier basis.

Authorization Type: Renewal of License
Non Common Carrier Grant Date: 10/31/2008 Expiration Date: 12/02/2023

H) Special and General Provisions

B) This RADIO STATION AUTHORIZATION is granted subject to the additional conditions specified below:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303(q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station.

This authorization shall be automatically forfeited if the station does not meet each required construction deadline by the required date of completion unless, before such date(s), a specific application is timely filed to request an extension of the construction deadline(s), supported with good cause why that failure to construct by the required date was due to factors not under control of the grantee.

Licensees are required to pay annual regulatory fees related to this authorization. The requirement to collect annual regulatory fees from regulates is contained in Public Law 103-66, "The Omnibus Budget Reconciliation Act of 1993". These regulatory fees, which are likely to change each fiscal year, are used to offset costs associated with the Commission's enforcement, public service, international and policy and rulemaking activities. The Commission issues a Report and Order each year, setting the new regulatory fee rates. Receive only earth stations are exempt from payment of regulatory fees.

1. 3700.000- 4200.000 H,V	36000F9	- - -	- - -	1000

• STANDARD CONDITIONS •

* THIS RADIO STATION AUTHORIZATION IS SUBJECT TO THE FOLLOWING STANDARD CONDITIONS

This radio station authorization is issued on the grantee's representations that the statements contained in the applications of the grantee for these facilities are true and that the undertakings described in those applications, so far as they are consistent with this authorization, will be carried out in good faith.

This radio station authorization shall not be construed in any manner as a finding by the Commission on the question of making or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require in the future under the provisions of Section 303(q) of the Commissions Act of 1934.

Neither this radio station authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 606 of the Commission Act of 1934. Operation of this station are governed by Part 25 of the Commission's Rules and Regulations.

IN ADDITION, THE FOLLOWING STANDARD CONDITIONS ARE APPLICABLE TO THE PARTICULAR TYPE OF RADIO STATION AUTHORIZATION SPECIFIED IN THE CAPTION ON THE FRONT SIDE OF THIS FORM:

• LICENSE •

This license shall not vest in the licensee any right to operate this station nor any right in the use of the frequencies designated above beyond the term of this license, nor in any other manner than authorized above.

• CONSTRUCTION PERMIT •

• CONSTRUCTION PERMIT/LICENSE •

Upon completion of station construction, the permittee shall demonstrate to the Commission that all the terms, conditions and obligations set forth in the applications and in this permit have been fully met, and shall apply for a radio station license. Upon such showing and application, and upon a finding by the Commission that since the granting of this permit no cause or circumstances has arisen which, in the judgment of the Commission, makes the operation of the station against the public interest, a radio station license will be issued by the Commission for the operation of the station. This permit shall not vest in the permittee any right to operate the station, nor any right to a license authorizing the use of the particular frequencies and emissions, or the particular longitudes in the geostationary orbit, or the amount of power, or the time of operation specified above. The Commission, in issuing this permit, reserves the right to assign whatever frequencies and emissions, orbital locations, power and convenience or necessity. The terms of that license as to frequencies, emissions, orbital locations, power, time of operation and scope of communication are expressly made subject to the exercise of this reserved right. This permit shall become automatically forfeit if this station is not ready for operation within the time specified below, unless prior to the expiration of this permit the Commission shall have granted an extension of time. Upon proper showing made to it by the permittee prior to the expiration of this permit, the Commission may grant an extension if it finds that the permittee was prevented from completing the construction of this station by causes not under permittee's control.

This simultaneous construction permit and license is issued pursuant to paragraph 15 of the Commission's Declaratory Ruling (35 FCC 2d 656) adopted July 30, 1975, and, in particular, is subject to the following terms and conditions:

- (a) This authorization shall be automatically forfeit if the station is not ready for operation by the required date of completion of construction specified on the reverse side of this form, unless an application for modification of construction permit for additional time to complete construction is filed by that date together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.
- (b) The station shall not be deemed ready for operation until the grantee certifies in writing to the Commission that the station has been constructed exactly in accordance with the technical parameters and terms and conditions specified in this authorization, with a copy to the Engineer in Charge of the appropriate Commission field office specified in Section 0.121 of the Rules and Regulations.

This license shall not vest in the licensee any right to operate this station nor any right in the use of the frequencies designated above beyond the term of this license, nor in any other manner than authorized above.

MAXIMUM ANTENNA
HEIGHT (AMSL): 288.4 METERS

6. REMOTE CONTROL POINT: NONE

THIS AUTHORIZATION IS SUBJECT TO THE ADDITIONAL NUMBERED SPECIAL PROVISIONS
AND THE FOLLOWING NUMBERED GENERAL PROVISIONS SPECIFIED ON THE ATTACHED FCC
FORM 488-A. (1): 2000 (2): 2200 (3): 2210 (4): 2500 (5): 2510

SPECIAL AND GENERAL PROVISIONS
FOR RADIO STATION AUTHORIZATION

The radio station authorization granted on FCC Form 488 for File No. 22-DSE-L -85, CALL SIGN: E8022 is subject to additional terms and conditions specified by code numbers on that form. The text of these special and general provisions is given below:

- 1000 - 1000 Maximum EIRP and maximum EIRP density are not applicable to receive-only operations.
- 2000 - 2000 The hours of operations of this station are not limited.
- 2200 - 2200 These facilities shall be used for the reception of only such programming material that the grantee has been authorized to receive and use by the owner of the programming material.
- 2210 - 2210 The grantee is authorized to add, delete or change channels of program material received from the satellite specified in Section 2 of this authorization without further application or notification to the Commission, provided: (a) the carriage of such program material is authorized pursuant to the Commission's rules, regulations and policies governing the terrestrial system(s) used to distribute this material to the end subscribers, and (b) that such earth station operations are consistent with the technical parameters specified in this authorization.
- 2500 - 2500 With respect to potential co-channel interference to or from terrestrial microwave radio stations: receive frequency band(s) listed in Section 1 of this authorization have been cleared for transmissions from and transmit frequency band(s) listed in Section 1 have been cleared for transmission to satellites located in the portion of the geostationary satellite orbit specified in Section 1 for the emissions designated in that Section.
- 2510 - 2510 Waiver of Section 25.203(e) of the Commission's Rules and Regulations is granted for the beam intersections listed in the application(s) for this facility.
