

Explanation of request for surrender of earth station registrations:

Recently Urban One, Inc. relocated broadcast studio locations associated with the following receive-only, registered incumbent lump-sum accepted earth stations:

1. Call sign: E200047, Registration: SESREG2018101105341
2. Call sign: E200059, Registration: SESREG2018101105353

Urban One replaced the earth stations because the associated broadcast studios relocated to a different office building in the same city. Urban One will use funds allocated to C-Band relocation at the new earth station locations.

Urban One made the business decision to move studios in 2021. Urban One did not anticipate moving studios in 2018 when the earth stations were registered.

FCC rules Section 25.138 (a) states "Applications for new, modified, or renewed earth station licenses and registrations in the 3.7-4.0 GHz portion of the band in CONUS are no longer accepted."

Accordingly, Urban One surrenders the registrations. Urban One included the above referenced earth stations in lump sum election filing in ECFS Docket No. 20-205. FCC accepted the lump sum election filing, and a claim for reimbursement is in progress with Relocation Payment Clearinghouse.

Urban One will submit an update in ECFS Docket No. 20-205, and inform Relocation Payment Clearinghouse of the change.
